

[JOIN SMOKH AS A FRIEND OF THE ORDER](#)

Make a donation pledge to the Church of Hope (Confrerie) of just \$150, and you will receive all 7 Volumes of the Order (see back cover of this magazine), a certificate suitable for framing, and our Hospitallers of the Americas lapel mini-brooch. The 7 volumes constitute the untold story of both regular medicine and CAM (complementary/alternative medicine) starting in the Levant with the Essenes, establishment of the first hospitals, the reformation in Europe, the pilgrimages following the age of exploration of the Knights around the world, and the Crusaders of Health from Europe in the 19th century that laid the foundation of CAM as we know it today. Clearly it will be evident, that there is really no substance to establishment branding CAM as an 'alternative'. Rather, today's practice by the regular medics, using synthetic drugs, is a recent experiment in ecology that has already gone awry with the crises occurring with antibiotics in medicine and agriculture; and the emerging maladaptation of genetically modified foods and livestock.

By becoming a *FRIEND OF THE ORDER (HOSPITALLERS OF THE AMERICAS)*, you will be placed on our monthly eNewsletter mailing list to stay in touch with all the advance The Sacred Medical Order is fostering in education and planetary welfare. You will also be placed on the Platonic Times newsletter mailing list and receive provocative articles on health and medicine not to be found elsewhere (visit: www.privinfo.org).
